FY'16 Carryover and Refund by Funding Source						
	Appropriations	Federal	Revolving	Local	Other*	Total
FY'16 Carryover						
FY'16 GR Refund**	\$1,564,290					\$1,564,290
*Source of "Other" and % of "Other" total for each.						
**Indicate how the FY'16 General Revenue refund was budgeted The refund was budgeted in Community and Family Health Service to pay for personnel costs and contractual obligations.						

What Changes did the Agency Make between FY'16 and FY'17?	
<b>1.) Are there any services no longer provided because of budget cuts?</b> The OSDH received a 4.00% state budget reduction for SFY16	
<b>2.) What services are provided at a higher cost to the user?</b> None	
<b>3.) What services are still provided but with a slower response rate?</b> None	
<b>4.) Did the agency provide any pay raises that were not legislatively/statutorily required? If so, please provide a detailed description in a separate document.</b>

FY'18 Top Five Appropriation Funding Requests	
	\$ Amount
Immunization (Vaccine Purchase, Distribution & Administration)	\$1,537,296
Federal Medical Assistance Percentage	\$1,281,368
Child Lead Exposure	\$632,366
Public Health Laboratory	\$632,040
Infectious Disease	\$602,642
<b>Total Increase above FY-18 Request</b>	<b>4,685,712</b>

How would the agency handle a 5% appropriation reduction in FY'18?	
\$ Amount	Description
\$10,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-18
\$2,314,586	A 5% reduction in appropriation to the department would require a reduction of services. Based on the OSDH business plan and agency priorities, the department would be required to eliminate of the state funds to Federally Qualified Health Centers for uncompensated care associated with the delivery of primary, dental, and behavioral health care to uninsured patients. This approach minimize the impact on the mandated public health programs (like emergency preparedness and infectious disease control) and maintain OHIP priorities that are necessary to improve health outcomes and prevent disease, specially tobacco, obesity and Children's Health programs.
\$360,584	Oklahoma Based Child Abuse Prevention: Approximately 159 families would not be served and approximately 13 Parents as Teachers (PAT) positions within the community non-profits would no longer be funded. In order to determine which programs would be eliminated, contractors will be rated and ranked by the number of home visits made and number of families served.
<b>\$2,685,170</b>	<b>Total Reduction of Expenditures</b>

## OKLAHOMA STATE DEPARTMENT OF HEALTH (340)

How would the agency handle a 7.5% appropriation reduction in FY'18?	
\$ Amount	Description
\$15,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-18
\$2,314,586	A 7.5% reduction in appropriation to the department would require a reduction of services. Based on the OSDH business plan and agency priorities, the department would be required to eliminate of the state funds to Federally Qualified Health Centers for uncompensated care associated with the delivery of primary, dental, and behavioral health care to uninsured patients. This approach minimize the impact on the mandated public health programs (like emergency preparedness and infectious disease control) and maintain OHIP priorities that are necessary to improve health outcomes and prevent disease, specially tobacco, obesity and Children's Health programs.
\$1,698,168	Oklahoma Based Child Abuse Prevention: Approximately 319 families would not be served and approximately 26 Parent as Teachers (PAT) positions within the community non-profits would no longer be funded. In order to determine which programs would be eliminated, contractors will be rated and ranked by the number of home visits made and number of families served.
<b>\$4,027,754</b>	<b>Total Reduction of Expenditures</b>

How would the agency handle a 10% appropriation reduction in FY'18?	
\$ Amount	Description
\$20,000	Oklahoma State Athletic Commission: This would reduce the number of inspectors trained for events scheduled in SFY-18
\$2,314,586	A 10% reduction in appropriation to the department would require a reduction of services. Based on the OSDH business plan and agency priorities, the department would be required to eliminate of the state funds to Federally Qualified Health Centers for uncompensated care associated with the delivery of primary, dental, and behavioral health care to uninsured patients. This approach minimize the impact on the mandated public health programs (like emergency preparedness and infectious disease control) and maintain OHIP priorities that are necessary to improve health outcomes and prevent disease, specially tobacco, obesity and Children's Health programs.
\$2,317,635	Oklahoma Based Child Abuse Prevention: Approximately 637 families would not be served and all 52 Parent as Teachers (PAT) positions within the community non-profit would no longer be funded. This would impact all 13 regional contractors.
\$718,118	ParentPro: Represent a loss of approximately 35% of Parent as Teachers (PAT) funding for four rural county health departments: Bryan, Creek, Jackson and Pittsburg. With this reduction approximately 112 familes would not be served and approximately 8 positions within the community health departments would no longer be funded.
<b>\$5,370,339</b>	<b>Total Reduction of Expenditures</b>

Is the agency seeking any fee increases for FY'18?		
	Yes	\$ Amount
Increase 1	Please see attached	\$0
Increase 2		\$0
Increase 3		\$0

What are the agency's top 2-3 capital or technology (one-time) requests, if applicable?	
Public Health Laboratory Total Construction Bond	\$50,100,000

Federal Government Impact
<p><b>1.) How much federal money received by the agency is tied to a mandate by the Federal Government?</b></p> <p>The department receives approximately 59% of the overall budget from federal sources. Those monies come with certain expectations or obligations of performance but do not necessarily constitute "mandates". In some instances, the federal monies are used to support mandates where appropriated monies or fees cannot sustain programmatic efforts such as infectious disease programs.</p> <p><b>2.) Are any of those funds inadequate to pay for the federal mandate?</b></p>

## OKLAHOMA STATE DEPARTMENT OF HEALTH (340)

As mentioned above, a considerable portion of federal monies received by the department are utilized to support state level mandates

### 3.) What would the consequences be of ending all of the federal funded programs for your agency?

Discontinuation of federal programs and funding would significantly impact public health systems and service delivery. Most federally funded programs serve statewide initiatives and impact the entire citizenry. Those programs include but are not limited to focus on the following public health issues; All Hazards Preparedness, Communicable Disease Prevention and Control, Maternal and Child Health Services, Nursing Home and Health Facility Inspection and Regulation as well as many others. The discontinuance of such services could dramatically impact health status in Oklahoma, leave our citizens vulnerable to outbreaks of disease and virtually eliminate the capability of a coordinated health and medical response in an emergency. Further, the elimination of these federal programs would result in the loss of jobs within and outside the department due to necessary reductions in personnel and elimination of contractual services currently provided. At present, approximately 50% of the department staff are funded on federal funding sources.

### 4.) How will your agency be affected by federal budget cuts in the coming fiscal year?

OSDH experienced recent federal funding cuts in the Hospital Preparedness Program (HPP). As part of the HPP, 90% must be awarded directly to hospitals and EMS services. This reduction will impact the states ability to train, test, and replenish emergency medical supplies and stockpiles.

### 5.) Has the agency requested any additional federal earmarks or increases?

The agency has not requested any federal earmarks. However, approximately, 59% of the departments funding is awarded through 77 separate federal revenue streams. The level of funding for each program is tied directly to the federal funding level as well as the federal guidance documents. The department continues efforts to identify all available funding opportunities that align with core public health functions, the agencies business plan and the Oklahoma Health Improvement Plan.

Division and Program Descriptions	
<b>Public Health Imperatives</b>	Protect the health/safety of the citizenry against infectious, occupational and environmental hazards; ensure adequate health/medical emergency/response; and offer protection to vulnerable persons against exposure to severe harm
<b>Priority Public Health - Improvement of Health Outcomes</b>	Health promotion and interventions aimed at reducing poor health outcomes and excess death in Oklahoma
<b>Prevention Services and Wellness Promotion</b>	These services are characterized by public health programs that prevent adverse health conditions and consequences and/or promote health and wellness
<b>Access to Competent Personal, Consumer and Healthcare Services</b>	These services may include the training and education of public health and/or private medical providers, linking individuals to healthcare services or the provision of healthcare services when otherwise unavailable
<b>Science and Research</b>	Services that seek to research public health problems & interventions for effectiveness; improve the practice of public health; and enhance the body of public health research through scientific publication and presentation
<b>Public Health Infrastructure</b>	The public health infrastructure exists to support specific imperative, priority and other public health programs. These include infrastructure costs associated with providing a statewide public health presence

Notes from Scott

Sproat: this report shows our scores on the NHSPI that were set prior to the 2015 overall. recent overhual of NHSPI by Robt. Woods Johnson and Univ. of Kentucky on the measures which resulted in them throwing out several hundred measures and adjusting the state scores and national average accordingly. Prior to the overhaul, Oklahoma's score on the measures reviewed was 7.3 (which I listed as the baseline) and the national average

Note from Jan Fox: The Calendar year 2015 Acute Hepatitis B rate is 1.0%. The FY vs CY confused me earlier about the rates for hepatitis B. The table lists FY 2015 hepatitis B rate as 1.98%, but that was
